Mr. Steven H. Gunderson Rocky Flats Cleanup Agreement Project Coordinator Colorado Department of Public Health and Environment 4300 Cherry Creek Drive South Denver, Colorado 80246-1530

Dear Mr. Gunderson:

Provided for your review and approval is the enclosed Pre-demolition Survey Report for the Westside Building Exteriors (DWF-021-05). This report characterizes the physical, chemical and radiological hazards associated with these facilities, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results.

In Fiscal Year 2003, DOE and CDPHE approved the conduct of pre-demolition radiological surveys of the exterior surfaces of various western facilities as a single set of buildings via a letter from DOE to CDPHE, 02-DOE-01598, dated December 13, 2002. CDPHE approved the approach in a letter, RE: Proposed Deviations from the Pre-Demolition Survey Plan (PDRS) dated January 27, 2003. The subsequent radiological surveys were performed in 2003. The facilities contained in the scope are shown on the attached map, and listed in the data summary table contained in the PDSR, Attachment B. Other facilities on the survey map that do not have identified sample points were not within the scope of this survey, and will be or have been PDS characterized and documented in stand alone PDSRs.

PDS results have been previously provided shortly after completion of the surveys. However, DOE is providing a consolidated report for review and approval. Based on the results of the summarized data indicating that no radiological contamination in excess of the PDSP unrestricted release limits of DOE Order 5400.5, the identified western facilities can be demolished from an exterior PDS radiological standpoint, after the interior PDS characterization is performed and approved.

Questions may be directed to Gary Morgan, Rocky Flats Project Management, at (303) 966-6003.

Sincerely.

Joseph A. Legare, Director

RFPO Project Management
